	36'	24	70	96	130	168	192	218	362	288

In order to calculate the correct size dance floor, it is best to determine the number of guests you are going to anticipate at your event. The general rule of thumb is to estimate about 65% of your total guest count will be on the dance floor at any given time. Once you have determined the correct number based on that percentage, you can locate that number on the chart above. This will help you estimate the correct dance floor for your event!
